# International Women's Day (8 March) 2020

The theme for International Women's Day (8 March) 2020 is, *I am Generation Equality: Realizing Women's Rights*. The year 2020 is a pivotal year for advancing gender equality worldwide, as the global community takes stock of progress made for women's rights. It will also mark several other galvanizing moments in the gender equality movement: a five-year milestone towards achieving the Sustainable Development Goals; the 20th anniversary of UN Security Council resolution 1325 on women, peace and security; and the 10th anniversary of UN Women's establishment.

The emerging global consensus is that despite some progress, real change has been agonizingly slow for the majority of women and girls in the world. Today, not a single country can claim to have achieved gender equality. Multiple obstacles remain unchanged in law and in culture. Women and girls continue to be undervalued; they work more and earn less and have fewer choices; and experience multiple forms of violence at home and in public spaces.

The year 2020 represents an unmissable opportunity to mobilize global action to achieve gender equality and human rights of all women and girls
